Last retrospective's To Try	What went well	What didn't go so well	To Try
First sprint so N/A	Met sprint goal, finished every user stories in sprint 1 in time	Duplicated work (Richard made register and login forms when they're already being made)	<div>1. Check Jira before starting a new task and make sure it is not in the IN PROGRESS or DONE list</div> <div>2. Update Jira when starting a task so that other members can see it</div> <div>(Richard is assigned to enforce this to make up for his mistake)</div>
	Started front-end early	Hard to organise meetings, meetings always pushed back	Introduce services like when2meet (William is assigned to start a when2meet schedule and better organise meetings)
